

“RK University organised a placement programme”

On February 7th 2012, RK University has crossed another milestone. RK University has organised E-Infochips Pool campus for recruitment of Project Trainee in VLSI and EMBEDDED SYSTEMS. 2011 passed outs and 2012 passing outs from various Engineering College across saurashtra have participated.

E-Infochips is a Global Product Design Services and Solutions Company provides end-to-end Product Engineering services and Semiconductor Services.

We started Registration process at 9:00 AM. 150 students from various colleges have participated in the placement process. Hr personnel from E-Infochips reached the campus by 9:30 AM and started their process through a pre-placement talk .During the Talk Ms. Ekta Mehul (HR, E-infochips) made an interactive presentation on E-infochips, its Work culture, Future growth and discussed job profile with the candidates.

They have conducted separate written test for Embedded and VLSI category and shortlisted 43 students out of 150 for the final round. Among them 34 candidates are for EMBEDDED SYSTEMS and 9 for VLSI category .The Hr personnel assembled the selected students and guided them regarding the further process. They said final round will be conducted at head office of E-infochips Ahmadabad And schedule for the same will shortly informed to selected candidates. Remuneration for the position will be 1, 80,000 CTC.

Exe.VP Mr Denish Patel, Registrar Mr.ShivlalRamani, Dean Mr. C.D. Sankharvara, has congratulated the selected students.

Hr Ms.Ekta Mehul said they are thankful for the support we have extended in the conduction of Drive with the arrangements made by us. And said that they will look forward for working closely with us.

On Behalf of RK University, Training & Placement Officer Mr. Rajanikanth gave vote of thanks to E-infochips & all the candidates who have participated in the Programme and making it successful.
