TRAINING MODULE | DESIGN E-COURSE USING CANVAS LMS

TRAINING HOURS / DAY	DURATION	MAX. PARTICIPANTS
5	2 days	30

CONTENT

- Introduction to E-learning
- Overview of LMS and Canvas LMS
- Design e-course homepage
- Design a e-course content (Modules)
- Design different online assessments
- Enrollment of students and teachers
- Group management
- Reviewing responses & manage grade book
- Management of e-Course (Backup & Restore)
- Tips and Tricks

METHODOLOGY

The module will be delivered through workshops that will encourage F2F interaction and video-based training, discussion, reflection, and hands on experiments to participants' needs and context. Participants will work on a real Canvas LMS to create their own e-learning content.

WHO SHOULD ATTEND?

Any academician who want to learn how to design, administer and manage online course/module through canvas (preferably those who want to implement the same in coming even semester)

Specially, for this workshop we target faculty members who joined RK University in last academic year or faculty members who wish to design an e-course through canvas and have low proficiency level in designing e-course.
